

2008 CGI Annual Meeting

Schedule 9/23 - 9/26

Schedule is subject to change. For the most current information please visit ClintonGlobalInitiative.org. Unless otherwise noted, events will be held at the Sheraton New York Hotel and Towers.

TUESDAY 9/23

10 : 00 A.M. – 9 : 00 P.M. **Member Registration**
Hudson Bar
Tuesday registration is strongly encouraged.

2 : 00 P.M. – 5 : 00 P.M. **CGI Exchange**
Metropolitan Ballroom
CGI Exchange is a forum for members to showcase their projects and accomplishments at the Annual Meeting. This exhibition event is an ideal opportunity to learn about commitments, explore partnerships, and network with other members. All members are encouraged to attend CGI Exchange and can gain entry with a member badge. Members are welcome to bring their corporate social responsibility or communications representative to CGI Exchange to assist in identifying potential areas of collaborations with new groups.

7 : 00 P.M. – 9 : 00 P.M. **Working Group Dinners**
Off-site locations
Hosted by each focus area's strategic partner and working group chair, these dinners will bring together CGI Advisory Board members, special guests, and members for an opportunity to meet their 2008 working group and discuss challenges, opportunities for action, and collaboration related to their respective CGI focus areas — education, energy & climate change, global health, or poverty alleviation. These gatherings provide a chance for members to meet and connect prior to the beginning of the formal program.

EDUCATION

Hosted by HP and the education working group chair, Gene Sperling

Several guest speakers, including **Chris Gerry**, **Kakenya Ntaiya**, and **Nelson Smith**, will spark conversations regarding charter schools in the United States, the use of technology to enable quality learning environments, and the battle for girls' rights for education in Kenya.

PROGRAM PARTICIPANTS:

Chris Gerry, Executive Principal, *New Line Learning Academies' Federation*

Kakenya Ntaiya, Founder, *Kakenya Center for Excellence*

Nelson Smith, President, *National Alliance for Public Charter Schools*

ENERGY & CLIMATE CHANGE

Hosted by the energy & climate change working group's Strategic Partner, Green Rubber, and Working Group Chair, David Sandalow

David R. Gergen, senior political analyst for CNN and professor at Harvard's Kennedy School, will be the guest of honor at this dinner, which will bring together the CGI Advisory Board, members, and special guests to discuss the prospects for new governmental action to address climate change in the United States and around the world.

PROGRAM PARTICIPANT:

David R. Gergen, Professor of Public Leadership, *Harvard Kennedy School*

GLOBAL HEALTH

Hosted by the global health working group's Strategic Partner, Procter & Gamble, and Working Group Chair, Tom Kalil

HRH Willem Alexander Claus George Ferdinand, Prince of Orange, will address the importance of water and sanitation as underlying factors in the fight against global disease at this dinner. **Bill Frist**, Former U.S. Senate Majority Leader, will discuss key challenges and opportunities in the areas of child survival and global health diplomacy.

PROGRAM PARTICIPANTS:

HRH Willem Alexander Claus George Ferdinand, Prince of the Kingdom of the Netherlands

Bill Frist, Schultz Professor of International Economic Policy, *Princeton University*

POVERTY ALLEVIATION

Hosted by the poverty alleviation working group's Strategic Partner, Citi, and Working Group Chair, Jane Wales

Musician, philanthropist, and activist **Bob Geldof** will speak about leveraging one's brand, network, and core competencies to effect social change. **Deepa Narayan** will address the ingenuity of the world's poor and the need to hear their voices. Also, **Brizio Biondi-Morra** will discuss his personal experience of employing market-based solutions to fight poverty in Latin America.

PROGRAM PARTICIPANTS:

Brizio N. Biondi-Morra, President, *Fundación AVINA*

Bob Geldof, Musician and Activist

Deepa Narayan, Director, Moving Out of Poverty Project, Poverty Reduction and Economic Management, *The World Bank Group*

WEDNESDAY 9/24

7:00 A.M. – 8:00 P.M. **Member Registration**
Hudson Bar

8:00 A.M. – 10:00 A.M. **Continental Breakfast**
Second Floor

8:00 A.M. – 9:30 A.M. **Media Relations Training**
New York East

CGI encourages members to publicize commitments in order to attract new partners and resources and to get the recognition each commitment deserves. To better prepare members for this, CGI will host a media relations training session during the Annual Meeting. The training will be led by **Derwin Johnson**, a veteran journalist with the leading PR company APCO.

10:00 A.M. – 11:30 A.M. **Opening Plenary Session: A Call to Action**
Metropolitan Ballroom

The opening plenary session will engage a diverse group of world leaders in an action-oriented discussion of the major challenges that CGI is focusing on this year: education, energy & climate change, global health, and poverty alleviation. This session will explore the transformative capacity of business, government, and NGOs to collaboratively develop and implement sustainable solutions.

SPECIAL REMARKS:

Lance Armstrong, Founder and Chairman of the Board, *Lance Armstrong Foundation*

PROGRAM PARTICIPANTS:

William J. Clinton, 42nd President of the United States; Founder, *William J. Clinton Foundation*

Her Majesty Queen Rania Al-Abdullah, The Hashemite Kingdom of Jordan

Bono, Lead Singer, *U2*; Co-founder, *Anti-Poverty Campaign, ONE*

Al Gore, Chairman, *The Alliance for Climate Protection*

E. Neville Isdell, Chairman of the Board of Directors, *The Coca-Cola Company*

Her Excellency Ellen Johnson-Sirleaf, President, Republic of Liberia

12:00 P.M. – 1:30 P.M. **Working Group Commitment Luncheons** (*four simultaneous*)

The working group luncheons are designed to shine a spotlight on the experience of commitment-makers. During each of the four working group luncheons, an array of commitment-makers will share different approaches to addressing global challenges, the progress they have achieved, and the lessons they have learned through the implementation of their commitments. Some luncheons will include panels of commitment-makers moderated by the Working Group Chair, while others will include short video testimonials.

EDUCATION

Empire East

PROGRAM PARTICIPANTS:

Reem Al-Hashimy, Minister of State, United Arab Emirates

Valentino Achak Deng, Founder, *The Valentino Achak Deng Foundation*

Jasmine Whitbread, Chief Executive, *Save the Children UK*

ENERGY & CLIMATE CHANGE

New York West

OPENING REMARKS:

Jon S. Corzine, Governor, State of New Jersey

Datuk Vinod Sekhar, CEO and President, *Petra Group*

PROGRAM PARTICIPANTS:

Peter Gutman, Global Head, Renewable Energy,
Standard Chartered Bank

Lewis Hay, III, Chairman and CEO, *FPL Group, Inc.*

Richard Kauffman, CEO, *Good Energies*

Mindy S. Lubber, President, *Ceres*

GLOBAL HEALTH

Empire West

OPENING REMARKS:

Susan Arnold, President, Global Business Units,
Procter & Gamble

PROGRAM PARTICIPANTS:

Nancy Aossey, President and CEO, *International Medical Corps*

Paul Farmer, Co-founder, *Partners In Health*

Gary Hatttem, President, *Deutsche Bank Americas Foundation*

POVERTY ALLEVIATION

New York East

PROGRAM PARTICIPANTS:

Christopher Crane, President and CEO,

Opportunity International

Elizabeth Littlefield, Chief Executive Officer,

CGAP (Consultative Group to Assist the Poor)

Maria Otero, President and CEO, *ACCION International*

2008 CGI Annual Meeting

2 : 0 0 P.M. – 3 :30 P.M.

Working Sessions (four simultaneous)

EDUCATION

Global Expansion of Programs That Increase Quality Education

Empire East

“Global Expansion of Programs That Increase Quality Education” will take on a two-tiered challenge. The worldwide effort toward improving access to education for all must now be paired with serious attention to the quality of education being delivered. This session will focus on the key issues surrounding the provision of quality education — improving the quality of teaching, revising curricula to make it more accessible and relevant, evaluating teacher performance, training school leaders, and ensuring accountability. The panelists will discuss models that address teacher training, literacy, and urban education reform; share lessons learned; and examine how these models can be replicated in other countries and regions.

MODERATOR:

Lynn Murphy, Senior Fellow, *The William and Flora Hewlett Foundation*

PROGRAM PARTICIPANTS:

Rukmini Banerji, Director, *Pratham and ASER Centre*

Maria Keita Diarra, Founder, *Institut pour l'Education Populaire*

Michelle Rhee, Chancellor, *District of Columbia Public Schools*

ENERGY & CLIMATE CHANGE

Ending Energy Waste

New York West

“Ending Energy Waste” will highlight ways to improve energy efficiency. The quickest, easiest, and cheapest way to fight global warming is to end energy waste. Rising energy prices have sparked new attention to the opportunity for companies, building owners, consumers, and many others to save money while cutting emissions. Businesses are fundamentally rethinking not only what products they make but entire paradigms for sourcing, manufacturing, transporting, and marketing. Energy consumption is becoming central to new building design and new businesses are emerging to capture the huge potential in retrofitting buildings to save energy. Consumers are demanding cars, appliances, and homes that will help cope with escalating fuel and electricity bills. The time is ripe for fresh attention to the myriad opportunities for improving energy efficiency. This session will explore concrete steps CGI members can take to save money and cut emissions by ending energy waste.

PROGRAM PARTICIPANTS:

Diana Farrell, Director, *McKinsey Global Institute (MGI), McKinsey & Company*

Matt Kistler, Senior Vice President, Sustainability, *Wal-Mart Stores, Inc.*

William McDonough, Chairman, *William McDonough & Partners, Architects*

Kathleen McGinty, Partner, *Peregrine Technology Partners*

Andrew Winston, Founder, *Winston Eco-Strategies, LLC*

GLOBAL HEALTH

Healthy Transitions for Adolescent Girls

Empire West

“Healthy Transitions for Adolescent Girls” will discuss ways to engage the 1.5 billion people between the ages of 10 and 25 (85 percent of whom live in developing countries) to make a difference. The panel will acknowledge critical challenges faced by adolescent girls: In many countries, one in seven young women marries before age 15; one in three faces a five-times higher risk of death as a result of giving birth before age 20; and over half lack essential nutrients. Girls represent two-thirds of people under age 25 living with HIV/AIDS. Panelists will discuss ways to improve adolescent girls’ well-being through targeted, youth-friendly health information and services. These investments are pivotal in solving health challenges: By empowering adolescent girls to make healthy decisions for themselves and the next generation — whom they bear and raise — entire families and communities are transformed.

PROGRAM PARTICIPANTS:

Maria S. Eitel, President, *Nike Foundation, Nike Inc.*

Ashley Judd, Global Ambassador, *YouthAIDS*;
Board Member, *PSI*

Felicia Marie Knaul, Senior Economist and Director, Health and Competitiveness Initiative, *Fundación Mexicana para la Salud*

Bene Edwin Madunagu, Co-Founder, *Girls' Power Initiative*

POVERTY ALLEVIATION

Strengthening Livelihoods through Financial Services for the Poor

New York East

“Strengthening Livelihoods through Financial Services for the Poor” will discuss the financial tools needed to help the world’s poor mitigate risks and build assets in order to build an economic base and contribute to long-term economic development. This panel will discuss the need for a diversity of financial instruments beyond credit, such as savings and insurance (including crop, life, and health insurance), as well as innovations in the delivery mechanisms for financial services, including ATMs, mobile phones, online terminals, and other new technologies. While the focus will primarily be on building assets in the developing world, it will also touch upon the recent American economic downturn as a barrier to financial stability for individuals working in the United States and for families abroad dependent upon remittances.

PROGRAM PARTICIPANTS:

Fazle Abed, Founder and Chairperson, *BRAC*

Sylvia Matthews Burwell, President, Global Development Program, *Bill & Melinda Gates Foundation*

Julio Frenk, Senior Fellow, *Bill & Melinda Gates Foundation*; President, *Carso Health Institute*

James Mwangi, Managing Director and CEO, *Equity Bank Limited*

Robert E. Rubin, Director and Senior Counselor, *Citigroup Inc.*; Former Secretary of the Treasury

2008 CGI Annual Meeting

4 : 0 0 P.M. – 5 : 0 0 P.M.

Plenary Session: Generating Profits, Jobs, and Equitable Growth

Metropolitan Ballroom

With the world population growing by more than 200,000 people each day, the public and private sectors must take action to create jobs, provide health and human services, and promote fair and equitable growth. Featuring public- and private-sector leaders, this panel will explore ways the public sector can create policies that encourage investment in high-quality and emerging-technology jobs as well as promote the fair distribution of wealth. It will also examine ways the private sector can invest in and work with communities to generate jobs and create sustainable and healthy local economies in both developed and developing nations.

PROGRAM PARTICIPANTS:

Matthew Bishop, New York Bureau Chief and American Business Editor, *The Economist*

John T. Chambers, Chairman and CEO, *Cisco*

Hernando de Soto, President, *Institute for Liberty and Democracy*

Thoraya Ahmed Obaid, Executive Director, *United Nations Population Fund*

Tulsi Tanti, Chairman and Managing Director, *Suzlon Energy Ltd.*

5 : 0 0 P.M. – 5 : 3 0 P.M.

Giving: A Conversation between President Clinton and Bill Gates

Metropolitan Ballroom

8 : 0 0 P.M. – 10 : 0 0 P.M.

Opening Reception

The Museum of Modern Art (MoMA)

CGI members—including heads of state, CEOs, and other global leaders—will congregate for the opening reception of the 2008 Annual Meeting at the Museum of Modern Art.

2008 CGI Annual Meeting

THURSDAY 9/25

7:00 A.M. – 8:00 P.M. **Member Registration**
Hudson Bar

7:45 A.M. – 9:00 A.M. **Continental Breakfast**
Second Floor

7:45 A.M. – 8:45 A.M. **Member Discussion Breakfasts**
Empire East and Empire West
Breakfast on Thursday is when members set the agenda. During online session sign-up in early September, each member is invited to submit discussion topics that expand upon the 2008 CGI program. CGI will select the most popular topics so that members can self-identify and connect with one another around these issues.

9:00 A.M. – 10:30 A.M. **Plenary Session: Integrated Solutions: Water, Food, and Energy**
Metropolitan Ballroom
During the 20th century, more people than ever benefited from clean water, plentiful food, and the mobility and comfort of an oil-based economy. World grain harvests quadrupled and world oil production grew 180-fold during the last century. However, our food, water, and oil reserves are increasingly strained as resources are depleted, natural systems become strained, and world population increases. The rising price of oil and increases in biofuel production are driving up global grain prices. New oil-extraction opportunities are heavily water- and carbon-intensive, and increasing demand for water is lowering water tables around the world. Because water, food, and energy issues are so closely related, solutions addressing one should address all three. This panel will discuss ways to use water more efficiently, expand food security, and reduce our dependence on fossil fuels to create a more sustainable future.

OPENING REMARKS:

John McCain, Senator from Arizona, United States Senate

PROGRAM PARTICIPANTS:

Tom Brokaw, Special Correspondent, *NBC News*; Moderator, “*Meet the Press*”

Gavin Newsom, Mayor, City of San Francisco

Shimon Peres, President, State of Israel

T. Boone Pickens, Chairman and CEO, *BP Capital*

Helle Thorning-Schmidt, Leader, *Danish Social Democratic Party*

CLOSING REMARKS:

Barack Obama, Senator from Illinois, United States Senate

EDUCATION

Providing Real Choices: What works for at-risk adolescent girls and boys?

Empire East

“Providing Real Choices: What works for at-risk adolescent girls and boys?” will discuss a diverse set of domestic and international education programs targeting the most at-risk adolescents and engaging them through education and employment opportunities. In the U.S. context, the session will feature innovative models that bridge the high school to college gap for students who might otherwise fall through the cracks. In the international context, the panelists will discuss initiatives designed to meet the psychological and educational needs of at-risk youth through proactive methods for protecting adolescents from forced labor, sex trafficking, and involuntary conscription into the army. The session will also highlight programs that re-integrate ex-combatants and trafficked youth, address the specific needs of adolescents affected by conflict, and work to educate teenage girls who have been out of school.

MODERATOR:

Wendy Kopp, Chief Executive Officer, *Teach for All*

PROGRAM PARTICIPANTS:

Grace Akallo, Advocate, *Gift of Grace*

Deborah Bial, President and Founder, *Posse Foundation*

Sompop Jantraka, Founder, *Development and Education Program for Daughters & Community Center*

ENERGY & CLIMATE CHANGE

Renewables Revolution

New York West

“Renewables Revolution” explores the global phenomenon of renewable energy, now growing at record rates. Solar entrepreneurs are making vast fortunes in China. Wind power provided 30 percent of new power in the United States last year and more than 20 percent of total power in Denmark. Geothermal energy delivers electricity in Iceland and California. Yet today renewable energy provides only a tiny percentage of global energy needs. Market barriers, erratic and inconsistent regulatory regimes, high costs for some technologies, and lack of knowledge block progress. This session will explore how renewable energy can be scaled up quickly to help meet the world’s energy demand and how every CGI member can help.

OPENING REMARKS:

Charlie Crist, Governor, *State of Florida*

PROGRAM PARTICIPANTS:

Lester Brown, President, *Earth Policy Institute*

Carol Browner, Former Administrator, US Environment Protection Agency (EPA)

Marcel Brenninkmeijer, Founder and Chairman, *Good Energies*

Wesley Clark, Former United States Army General; Senior Fellow, *UCLA’s Burke Center for International Relations*; Director, *Emergya Wind Technologies, BV*

GLOBAL HEALTH

Expanding the Global Health Workforce

Empire West

“Expanding the Global Health Workforce” will investigate a challenge to global health that has little to do with micro-organisms: a world-wide shortage of 4 million health workers. Fifty-seven countries, most of them in Africa and Asia, face a severe dearth of trained health workers. The shortage is worst in sub-Saharan Africa, where 10 countries have fewer than three doctors per 100,000 people. Where workers do exist, unequal distribution and low productivity are problems. This panel will explore critical ways in which the private sector can help increase the number of health workers and deepen their capacity through low-cost information technology solutions that improve the effectiveness of community providers and strengthen public health systems.

PROGRAM PARTICIPANTS

Craig R. Barrett, Chairman, *Intel Corporation*

Tedros Adhanom Ghebreyesus, Minister of Health, Federal Democratic Republic of Ethiopia

Mubashar Sheikh, Executive Director, Global Health Workforce Alliance, *World Health Organization*

Aruna Uprety, Director, *Rural Health and Education Service Trust*

POVERTY ALLEVIATION

Food Security and Poverty

New York East

“Food Security and Poverty” will address a subject that is on many minds in 2008: Food prices have soared recently, in response not only to increasing global demand and weather disruptions, but also to the expansion of biofuel production. Consequently, people have been driven from poverty to abject poverty and from despair to anger, creating both economic and political crises. This panel will discuss swift action that can be taken to address humanitarian crises in the near term, and sustainable solutions to confront food demand increases from rapidly growing nations, like India and China, in the long run. Panelists will focus on cutting-edge efforts to enhance agricultural productivity and inventive models that help small farmers gain access to local and global markets alike.

PROGRAM PARTICIPANTS:

Madeleine K. Albright, Principal, *The Albright Group, LLC*

Eleni Z. Gabre-Madhin, Chief Executive Officer, *Ethiopia Commodity Exchange*

Ken Lee, Co-Founder, *Lotus Foods, Inc.*

Namanga Ngongi, President, *Alliance for a Green Revolution in Africa*

Raj Shah, Director, Agricultural Development, *Bill & Melinda Gates Foundation*

12 :30 P.M. – 1:30 P.M.

Luncheon Plenary: Meeting the Demands of Population Growth and Urbanization

Metropolitan Ballroom

In roughly 40 years, the world's population will reach a projected 9.2 billion people, with significant growth expected in cities and the developing world. In addition, the population likely will be younger. Urbanization and population growth are often framed as crises of food shortages, climate change, over-urbanization, and resulting conflicts. These outcomes can be mitigated. Innovators are improving women's education, creating jobs, and developing other programs that slow population growth and expand opportunities for youth. This panel will feature leaders who have implemented strategies that are strengthening cities' infrastructure and assisting communities and countries to transform population growth into opportunities.

PROGRAM PARTICIPANTS:

Michael R. Bloomberg, Mayor, City of New York

His Royal Highness Prince Turki Al Faisal Al Saud, Former Ambassador, Kingdom of Saudi Arabia to the United States of America; Chairman, *King Faisal Center for Research and Islamic Studies*

Paul Hawken, Executive Director, *Natural Capital Institute*

Mary Robinson, Former President, Ireland; President, *Realizing Rights – The Ethical Globalization Initiative*

ENERGY & CLIMATE CHANGE

Clean Transport

New York West

“Clean Transport” will address a topic of urgent importance to every nation on earth. In the next two decades, the number of cars and trucks on the planet is projected to grow from roughly 800 million to 2 billion. No solution to global warming is possible without revolutionary changes in our vehicle fleets. While the challenge is immense, signs of hope abound. Already, the hybrid revolution is changing vehicle fleets everywhere. Plug-in electric vehicles radically improve fuel efficiency and can be recharged from clean renewable sources such as the sun and wind. Advanced biofuels dramatically cut emissions of heat-trapping gases. Transit systems improve quality of life while reducing emissions. With oil prices at record highs, drivers everywhere are clamoring for alternatives to conventional transportation. This session will explore ways to cut emissions from the transport sector while providing mobility to people around the world.

PROGRAM PARTICIPANTS:

John E. Bryson, Retired Chairman and CEO,
Edison International

Nancy Kete, EMBARQ Director, *EMBARQ: The WRI Center for Sustainable Transport*

Beth Lowery, Vice President, Environment, Energy, and Safety Policy, *General Motors*

John Melo, CEO, *Amyris Biotechnologies*

Vijay V. Vaitheeswaran, Correspondent, *The Economist*

POVERTY ALLEVIATION

Improving Livelihoods in the Wake of Conflict

New York East

“Improving Livelihoods in the Wake of Conflict” explores how the investments of private, public, and philanthropic actors can help jumpstart economies and consolidate the fragile gains of countries emerging from conflict. President Ellen Johnson-Sirleaf is quoted as saying that Liberia “is not a poor country. It is a country that has been managed poorly.” Several other post-conflict countries provide dramatic evidence that good governance can produce immediate economic results. The panel will feature successful models, such as Rwanda and El Salvador, and will ask how private actors can contribute to the progress of countries like Liberia and prepare for the day when other countries like Zimbabwe can emerge from crisis.

PROGRAM PARTICIPANTS:

Peter Buffett, Co-chair, *NoVo Foundation*

María Eugenia Brizuela de Ávila, Regional Head, Latin America Corporate Sustainability, *HSBC El Salvador*

Donald Kaberuka, President, *African Development Bank*

Nicholas D. Kristof, Columnist, *The New York Times*

JOINT SESSION ON EDUCATION AND GLOBAL HEALTH

Expanding the School-Health Connection

Empire East and Empire West

“Expanding the School-Health Connection” explores the new ways in which schools can improve local health conditions. For example, there has been extensive work carried out on the impact of school-wide deworming programs on attendance and learning outcomes. There is also a growing trend of combining education and nutrition through school feeding programs, micronutrient disbursements to students, and ensuring the availability of clean water at schools. In addition, the linkages between opportunities for education — particularly the availability of secondary schools — and HIV/AIDS prevention are unquestionable and schools are now being used as a vehicle to distribute new vaccines and treatments to promote healthy lifestyles. In the wake of a global food crisis and health challenges, this session seeks to generate a meaningful dialogue about what works at the intersection of schools and health.

PROGRAM PARTICIPANTS:

Lael Brainard, Vice President and Director of Global Economy and Development, *The Brookings Institution*

PROGRAM PARTICIPANTS:

Margaret G. McGlynn, President, Merck Vaccines and Infectious Diseases, *Merck & Co., Inc.*

Josette Sheeran, Executive Director, *United Nations World Food Programme*

Beatrice Were, Executive Director, *National Coalition of Women with AIDS in Uganda*

4 : 0 0 P.M. – 5 :00 P.M. **Special Session**

SPECIAL SESSION

Climate Change and Poverty

Empire East and Empire West

"Climate Change and Poverty" will address the devastating impact of climate change on the world's poor. Droughts, floods, rising seas, and the spread of infectious disease threaten to push families and communities already struggling for life's basics to the brink. At the same time, many tools for addressing climate change and its impacts — such as solar power, wind power, water treatment, and sustainable agriculture — can help create jobs and play an important role in fighting poverty. This panel will explore strategies for fighting global warming while lifting poor communities from poverty, examining the role of technology cooperation, carbon markets, philanthropy, public-private partnerships, and other mechanisms. It will also explore the imperative of helping poor communities adapt to the real, everyday dangers posed by global warming.

PROGRAM PARTICIPANTS:

H.E. Felipe Calderón, President, United Mexican States

Richard Cizik, Vice President of Governmental Affairs, *National Association of Evangelicals*

Van Jones, Founder and President, *Green for All*

Rajendra Kumar Pachauri, Director-General, *TERI, The Energy and Resources Institute*

John Podesta, President and CEO, *Center for American Progress*

Judith Rodin, President, *The Rockefeller Foundation*

4 : 0 0 P.M. – 5 :30 P.M. **Working Sessions** (*two simultaneous*)

EDUCATION

Beyond Microfinance: Strengthening Business and Entrepreneurship Education for Women in Emerging Economies

New York West

"Beyond Microfinance: Strengthening business and entrepreneurship education for women in emerging economies" will examine ways to strengthen the quality of business schools and entrepreneurial certificate programs for women. Business education is critical to reducing inequality in developing economies. These programs are providing the necessary skills and employment flexibility for secondary school graduates who had previously been left out of the changing global economy. Panelists will discuss innovative models that provide learning equivalencies for women who have never had the opportunity to complete a secondary education. These opportunities allow women to develop the skills needed to start their own enterprises or continue on to higher education, earning returns that are experienced not only by themselves and their families, but by the whole community.

PROGRAM PARTICIPANTS:

Zarine Aziz, President, CEO and Chairperson, *First Women Bank Limited*

Peter Bamkole, Director, *Enterprise Development Services*

Maria Bartiromo, Anchor, *CNBC*

Dina Powell, Managing Director, Global Head of Corporate Engagement, *Goldman, Sachs & Co.*

Merida Roets, Co-Director and Founder, *Scientific Roets*

GLOBAL HEALTH

Ensuring a Healthy Start: Maternal and Child Nutrition

New York East

"Ensuring a Healthy Start: Maternal and Child Nutrition" will stress the elemental impact that maternal health has on the health of children. Under-nutrition accounts for one in three child deaths, or 3.5 million annually. Some children do not get enough food and protein, while others suffer from vitamin and mineral deficiencies. Infants and young children under the age of two are particularly vulnerable. Under-nutrition during this time contributes to high child mortality rates and has long-lasting, disabling impacts on health and intellectual development — including a greater risk of chronic disease in adulthood. The current food crisis is making things worse, but it also provides an opportunity for the world to take steps to improve both the quantity and quality of food. This panel will discuss interventions that can save lives, such as early and exclusive breastfeeding, micronutrient fortification of staple foods, and the development of nutrient-rich foods for infants and young children.

PROGRAM PARTICIPANTS:

Mauricio Adade, President, Human Nutrition and Health, *DSM Nutritional Products Ltd.*

Vinita Bali, Managing Director and CEO, *Britannia Industries Limited*

Utami Roesli, Director, *Indonesian Breastfeeding Center*

Kathy Spahn, President and CEO, *Helen Keller International*

2008 CGI Annual Meeting

6 : 0 0 P.M. – 7: 0 0 P.M.

Cocktail Reception
Metropolitan Foyer

7: 0 0 P.M. – 8 :30 P.M.

Clinton Global Citizen Awards Ceremony
Metropolitan Ballroom

President Clinton recognizes extraordinary individuals who have demonstrated innovative leadership in confronting global challenges at the Clinton Global Awards ceremony. Hosted by **Maria Bartiromo**, this program will feature musical performances by **Youssou Ndour** and **James Taylor** and will be broadcast on *CNBC*.

8 :30 P.M. – 10 : 0 0 P.M.

Tastes of the World Buffet

Second Floor: Empire East, Empire West, and Global Connect Café

The Tastes of the World Buffet is a dinner reception, featuring tasting stations of international cuisine by top New York chefs and live music.

FRIDAY 9/26

7 : 00 A.M. – 1 : 30 P.M. **Member Registration**
Hudson Bar

7 : 45 A.M. – 9 : 00 A.M. **Continental Breakfast**
Second Floor

7 : 45 A.M. – 8 : 45 A.M. **Breakfast Working Group Sessions** (*four simultaneous*)

GLOBAL HEALTH

Empire West

This breakfast will address the “Big 3” in global health: AIDS, Tuberculosis, and Malaria. Despite enormous effort and investment around the world, 32 million people are living with HIV/AIDS, 14 million with tuberculosis, and at least 408 million malaria cases annually. Still, increased effort and investment have yielded examples of successful approaches that can be replicated or scaled up globally. During this session, leaders in the fields of AIDS, tuberculosis, and malaria will highlight current challenges as well as identify high-impact opportunities as we fight the war against each disease.

PROGRAM PARTICIPANTS:

Peter Piot, Executive Director, *UNAIDS*;
Under Secretary-General, *United Nations*
Jorge Sampaio, Former President, Portugal
Anil Soni, CEO, *Clinton Foundation HIV/AIDS Initiative*

POVERTY ALLEVIATION

New York East

The discussion will highlight the experiences of Mexico and Botswana, two successful middle-income countries. Botswana has achieved remarkable annual growth, averaging over 9% from 1966 to 1999, based largely on resource extraction and export. Mexico has a diverse and dynamic economy, now the 12th largest in the world. How can the economic success of these two middle-income countries be translated into prosperity for the middle class? A more robust middle class can generate homegrown, poverty-reducing and job-creating business growth. What role can and should be played by the international private sector and philanthropic community toward this end?

PROGRAM PARTICIPANTS:

Ian E. L. Davis, Worldwide Managing Director,
McKinsey & Company
Festus Mogae, Former President, Republic of Botswana
Jacqueline Novogratz, Chief Executive Officer,
Acumen Fund
Trooper Sanders, Domestic Policy Advisor,
William J. Clinton Foundation
Ernesto Zedillo, Former President of Mexico; Director,
The Yale Center for the Study of Globalization

EDUCATION

Innovations in Education

Empire East

This breakfast will feature educational entrepreneurs who are pushing the boundaries of how education has been conceptualized by fostering the development and implementation of bold, innovative approaches that reach beyond improving access and quality. The innovations discussed strive to inspire students, parents, teachers and community leaders to improve their own lives, communities, nations and our world.

PROGRAM PARTICIPANTS:

Ginny Ehrlich, Executive Director, *Alliance for a Healthier Generation*
Dave Levin, Co-Founder, *KIPP*; Superintendent, *KIPP NYC*
Roland G. Fryer, Professor of Economics and Director of the Education Innovation Laboratory, *Harvard University*
Jonathan Schnur, Chief Executive Officer and Co-Founder, *New Leaders for New Schools*

ENERGY & CLIMATE CHANGE

New York West

This breakfast will help members learn about the plans and activities of exciting new climate initiatives in the areas of energy efficiency and renewable energies.

PROGRAM PARTICIPANTS:

Ira Magaziner, Chairman, *Clinton Climate Initiative*,
Clinton Foundation HIV/AIDS Initiative

2008 CGI Annual Meeting

9 : 00 A.M. – 10 : 00 A.M. **Plenary Session: The Global Impact of Rural Innovation**

Metropolitan Ballroom

In today's society, where technology enables people to connect with one another instantly, it is hard to understand why poor, rural regions around the world continue to face persistent challenges in isolation. To reconcile these inequalities, many individuals, organizations, and businesses are actively addressing education, economic development, energy opportunities, and other vital needs. From the development of alternative-energy technology to implementation of economic development initiatives, persistently impoverished rural communities are developing in ways that can be scaled to address global challenges. This panel will include leaders who are driving innovations that serve rural communities and can be applied around the world.

PROGRAM PARTICIPANTS:

Jacques Aigrain, CEO, *Swiss Reinsurance Company*

Steve Gunderson, President and CEO, *Council on Foundations*

Wangari Muta Maathai, Founder, *Green Belt Movement, Kenya*

Elsie Meeks, President and CEO, *First Nations Oweesta Corporation*

Rick Warren, Pastor, *Saddleback Church*

Muhammad Yunus, Founder and Managing Director, *Grameen Bank*

EDUCATION

Education and the Struggle for Peace and Stability

Empire East

"Education and the Struggle for Peace and Stability" will demonstrate the many concrete ways in which education mitigates conflict. From Haiti to Sierra Leone, from Southeast Asia to the Middle East, education is a key tool for promoting opportunities that integrate young people into society and steer them away from more violent activities. Post-conflict settings have a distinct set of challenges where education is of the utmost importance if nations are to rebuild their societies following war and violence. Additionally, as displaced families return to their homes and start to regain a sense of stability, many children and adolescents face the reality of having been left out of the formal schooling system for years due to the conflict. Many of these children have experienced the worst misfortunes: the loss of parents or siblings, the destruction of homes and communities, or recruitment into the military as child soldiers. This panel will focus on the special needs of rebuilding societies in post-conflict areas and providing opportunity in societies where education can make the difference between peaceful or violent futures.

PROGRAM PARTICIPANTS:

Wyclef Jean, Founder and Chairman, *Yéle Haiti*

Zainab Salbi, President and Chief Executive Officer,
Women for Women International

George Stephanopoulos, Chief Washington Correspondent,
ABC News

Christiana A.M. Thorpe, Chief Electoral Commissioner and
Chairperson, *National Electoral Commission*

ENERGY & CLIMATE CHANGE

Local Leadership

New York West

"Local Leadership" explores the emergence around the world of leadership from the ground up regarding climate change. From mayors to governors to civic groups to developers, local leaders are not waiting for national governments to act. These efforts are already delivering substantial emissions reductions and promise more progress for years to come. With roughly half the world's population living in urban areas and the urban population expected to grow by more than 500 million people in the decades ahead, these programs are critical to the fight against global warming. This session will explore innovative ways that local leaders in all sectors can improve quality of life while combating climate change.

PROGRAM PARTICIPANTS:

Bertrand Delanoë, Mayor, City of Paris

José María Figueres Olsen, Former President of the
Republic of Costa Rica; *Concordia 21, Grupo Felipe IV*

Robert F. Kennedy, Jr., Chairman, *Waterkeeper Alliance*;
Senior Attorney, *NRDC*

Xiaoyi (Sheri) Liao, President, *Global Village of Beijing*

Bill White, Mayor, City of Houston

GLOBAL HEALTH

Safe Drinking Water and Sanitation

Empire West

"Safe Drinking Water and Sanitation" will search for one of the most ancient sources of health known to humankind: clean water. Currently, a billion people worldwide lack access to safe drinking water and more than 2.6 billion people lack access to basic sanitation. Water-related diseases kill 3.5 million people every year and rank as the second-leading cause of death among children under five. Although the technology exists and the social payoff is high (\$8 for every dollar invested) — the global community has not solved this problem. This panel will explore sustainable, community-led solutions to the global water and sanitation crisis. In particular, the panel will focus on decentralized solutions, such as "point of use" technologies for household use, or community-based "micro-utilities" that can deliver safe drinking water as a service with modest capital expenditures.

PROGRAM PARTICIPANTS:

Tralance Addy, President and CEO, *WaterHealth International*

António Guterres, Former Prime Minister, Portuguese
Republic; High Commissioner, *United Nations Human
Rights Commission*

Jon Lane, Executive Director, *Water Supply and Sanitation
Collaborative Council*

Maria Mutagamba, Minister of State and Environment, Uganda
Rohini Nilekani, Chairperson, *Arghyam Trust*

POVERTY ALLEVIATION

Information and Poverty

New York East

"Information and Poverty" explores how the rapid pace of innovation — particularly information and communication technologies — has created unprecedented opportunities to lift people out of poverty. Swift access to knowledge can be life changing for individuals and communities. The explosive growth in mobile phone usage in developing countries offers great promise for enhancing income-generating opportunities for the world's poor, and for expanding access to learning, telemedicine, and banking services to even the most remote communities. This panel will spotlight current and forthcoming examples of how information can be leveraged to improve the livelihoods of individuals, strengthen governance and alleviate poverty around the world.

PROGRAM PARTICIPANTS:

Holly Ladd, Vice President and Center Director,
*AED-SATELLIFE Center for Health Information and
Technology*

Mary Ellen Iskenderian, President and CEO,
Women's World Banking

Brian Richardson, Chief Executive Officer, *WIZZIT*

Sonal Shah, Program Director, *Google.org*

2008 CGI Annual Meeting

Luncheon Buffet

Second and Third Floor Foyers

12: 00 P.M. – 1: 00 P.M.

Special Session: Overcoming Poverty in Challenging Environments

New York East and New York West

Despite historic gains in poverty reduction in countries such as India and China, endemic poverty persists as a central challenge in much of the developing world. In many impoverished nations, efforts to stimulate development and to fight poverty are undermined by conflict, disease, corruption, and weak institutions. Overcoming challenges in these difficult environments requires innovative approaches to strengthen governance, empower local communities, and ignite private-sector growth. This special session will feature world leaders who have developed and implemented innovative approaches to poverty alleviation under exceptional circumstances. The discussion will focus on critical areas for engagement and action by CGI members in the midst of today's most challenging economic and political circumstances.

PROGRAM PARTICIPANTS:

Tony Blair, Former Prime Minister, United Kingdom of Great Britain and Northern Ireland

Helene D. Gayle, President and CEO, *CARE USA*

His Excellency Ernest Bai Koroma, President, Republic of Sierra Leone

Surin Pitsuwan, Secretary-General, *ASEAN*

His Excellency René Préval, President, Republic of Haiti

1: 30 P.M. – 2 :30 P.M.

Closing Plenary Session
